Next meeting: Tuesday, November 10, 2020

Snow Removal question: When we are expecting more than 2", let's say a 5" snow fall, the crew is still dispatched at 2". They will have to do multiple passes until the area is cleared. However, if we get lake effect snow which comes down at a faster and heavier pace, sometimes we wait until the majority of the storm has passed or wait until 2.5"-3" have accumulated.
